DevOps

What? And Why?

DevOps enhances your ability to deliver applications and services at high velocity: evolving and improving products at a faster pace. This speed enables you to better serve your customers and compete more effectively in the market.

Benefits:

Rapid Delivery

Security

Speed

Reliability

Scale

Collaboration

⦿ Is DevOps for you?

Manual and scripted processes

High IT Costs

Your competitors are faster to market

Lack of Visibility

Deployment Failures

Handover and Collaboration Challenges

Challenges you may face

While making the transition to adopting DevOps

Fear of the New

Old Ideas about Risk

Immature methodologies & shortage of training

Failure to appreciate the urgency.

Business continuity and disaster recovery plans

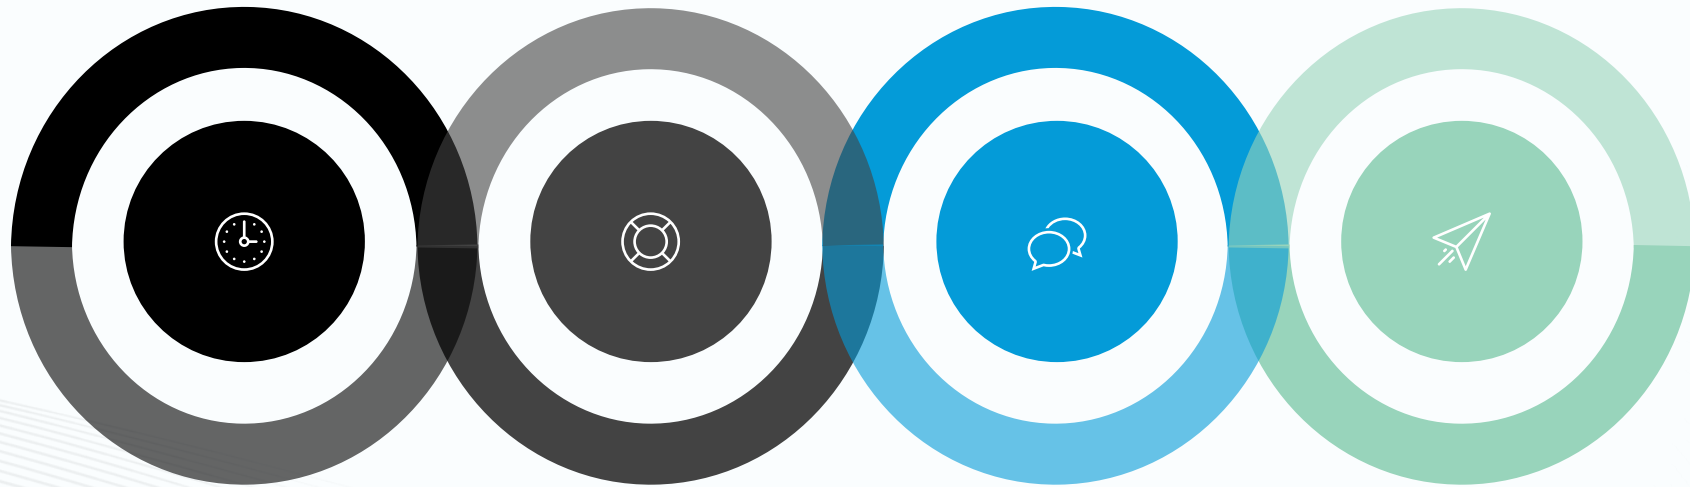

Inflexible command and control structures

🕒 DevOps Myths

Adopting tools makes you
DevOps

DevOps is only for startups

Having DevOps in your job title
means you're doing DevOps

DevOps is only for Engineers
and Technicians

Top Four KPIs

To measure the success of DevOps at your organization

Number of Failures

Lead Time

Deployment
Frequency

Time to Recover

ADIO Partnership

Partnership with Abu Dhabi Investment Office

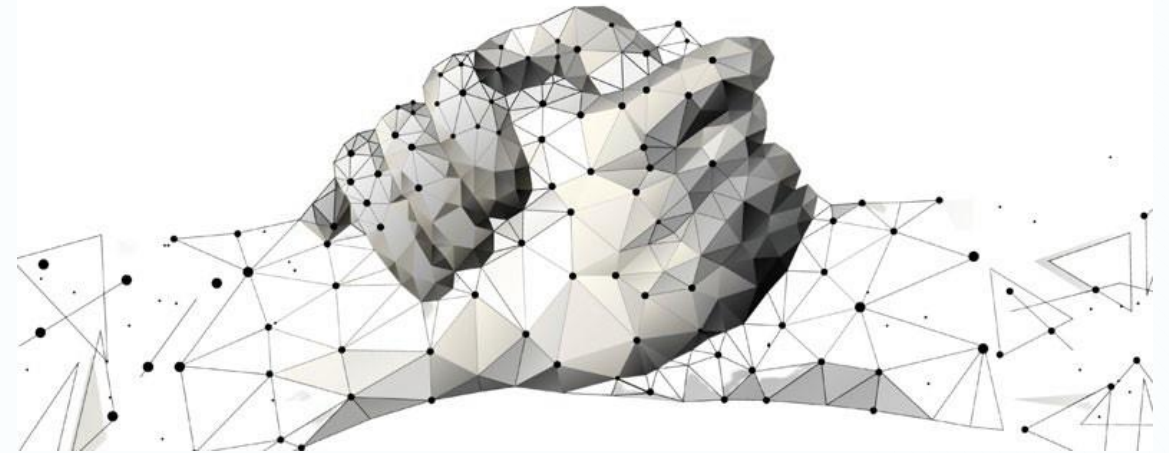

Bespin Global has secured a strategic partnership with Abu Dhabi Investment Office (ADIO) to accelerate digital transformation from the UAE capital and help more businesses leverage the endless possibilities of cloud.

With this partnership:

1. Bespin Global established its headquarters in Abu Dhabi.
2. Building 2 innovation centers – a Cloud Operations Centre and a Technology Hub for its cloud experts – in Abu Dhabi to help drive advancements in technology and digital transformation.
3. Bespin Global is growing its commercial and technical team as it taps into new areas such as Financial Services and FinTech.
4. Bespin will establish an internship program to nurture Emirati talent and organize Hackathon programs to drive competition.

BESPIN GLOBAL
HELPING YOU ADOPT CLOUD.
